For example, the best possible score for any team would be 3, meaning the team had the lowest cumulative time in each event and the lowest golf score.

4-PERSON TEAMS

- Run and bike times are determined by adding the total times of the top three participants on each team. The three-person times are compared to determine event place.
- Golf place points are determined by total scramble score.

2-PERSON TEAMS

- Run and bike times are determined by adding the total times of both participants on each team. The two-person times are compared to determine event place.
- Golf place points are determined by total score.

3-PERSON RELAY, CORPORATE & INDIVIDUAL TEAMS

- Each event scored individually.
